

# Building a REST API USING Python and Flask

---

## INTRODUCTION

**Sanjay Rai**  
PLURALSIGHT AUTHOR

# What Is Flask and Why Use It?

---

## Why Use Flask?

**Build fast performing APIs out of the box quickly**

**Use the same python code you are familiar with**

**Takes only a couple of hours to learn**

**Can easily be integrated into your current project or used by itself**

# Course Overview

**Install Flask**

**Create your first Flask application**

**Create routes for all of the different HTTP verbs**

**Connect your Flask application to a database**

**Add authentication to your APIs**

We'll Start by  
Learning

**What Flask is**

**What Flask provides you with  
out of the box**

**Whether Flask is right for  
your project**
